“TORINO 2006 PARALYMPIC GAMES ARS AWARD”

It is a technical sport meeting, all the SWL and amateur radio in the world are participating.

The goal of the meeting is to create a larger awareness and interest towards Paralympic Games, both Winter and Summer, - IX Paralympic Winter Games Torino 2006 10-19 March 2006, and particularly to offer an ulterior opportunity to make known the sporting activities performed by disabled persons, and of course the possibilities of these people to integrate not only socially, but physics, therapeutics, and recreational, enhancing the benefits received performing sports, not only competitive sports.

The techniques and equipment tried by radio or the listening process made by the disabled find practical application and are put at the disposal of the community to get over the handicaps.
